Otherwise packing charged for at actual cost.

Evergreen Nursery Co.
STURGEON BAY, WISCONSIN
Established 1864

Remember, when buying stock from us you are getting material propagated under vigorous climatic, and ideal soil conditions. Stock has to be hardy to thrive up here in northern Wisconsin. Our soil conditions produces a root system that we are just egotistical enough to believe can't be beat anywhere.

Our sixty-seven years of successful evergreen growing makes us especially fitted to supply the trade with an excellent grade of material at prices you can't afford to overlook.

TRANSPLANTED EVERGREENS

Each X indicates one transplanting, for example XX means twice transplanted.

Norway Spruce—

A hardy rapid grower. Great for Christmas trees and windbreaks. Plant several thousand of the once transplanted trees now and get in on the ground floor for the huge Christmas tree market that is rapidly developing.

	10	100	1000
4- 6 inches X	\$	\$ 3.00	\$ 17.50
6- 8 inches X		3.50	25.00

White Spruce—

	10	100	1000
6- 8 inches X	\$	\$ 6.00	\$ 45.00

Col. Blue Spruce—

These trees have all been grown from seed selected from blue specimens. They will run a high percentage of blue trees.

	10	100	1000
4- 6 inches X	\$	\$ 6.00	\$ 55.00
6- 8 inches XX		11.00	95.00

Am. Arbor Vitae—

Extensively used as a hedge plant, screen work, and specimen planting. We are headquarters for Am. Arbor Vitae, growing all our trees from seed that has been collected by ourselves from upland specimen trees. This produces an exceptionally hardy tree. Our Am. Arbor Vitae do not winter injure. Our sales on this item vouch for the above.

	10	100	1000
6-10 inches X	\$	\$ 4.00	\$ 29.00

8-10 inches XX	\$3.50	\$28.00	\$240.00

TO OUR EASTERN CUSTOMERS! We can now give you some mighty fast freight service! All our eastern freight crosses Lake Michigan on a cartery and is rushed east on through routes. Not only is it very rapid but rates are about 20% lower, as it cuts distance by hundreds of miles, by not going through Chicago. Get out your map and see for yourself. We are located in that eastern thumb of Wisconsin that protrudes out into Lake Michigan.

EVERGREEN SEEDLINGS

In the growing of seedlings the importance of seed sources cannot be over emphasized. We spare no effort in securing seed that we know is reliable and is collected from only true types. All native seed is collected by our own men. We have a particular section of sandy loam land on which we grow our seedlings. This produces a far better root system than is usually found on seedlings.

NORWAY SPRUCE—

Our Norway Spruce seedlings are healthy vigorous stock, and would be a source a real satisfaction to you.
